Report of Independent Auditors

Board of Trustees
The Arch Foundation for
The University of Georgia, Inc.
Athens, Georgia

We have audited the accompanying statement of financial position of The Arch Foundation for the University of Georgia, Inc. (the "Foundation") as of June 30, 2006, and the related statement of activities and cash flows for the year then ended. These financial statements are the responsibility of the Foundation's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Foundation as of June 30, 2006 and the changes in its net assets and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Cherry, Bekaert & Holland, L.L.P.

THE ARCH FOUNDATION FOR THE UNIVERSITY OF GEORGIA INC.

Notes to Financial Statements Year Ended June 30, 2006

Note 1 – Summary of significant accounting policies

Nature of operations

The Arch Foundation for the University of Georgia, Inc. (the “Foundation”) is a not-for-profit foundation that was chartered in 2005 to receive and administer contributions for the support of the University of Georgia (the “University”). The University is governed by the Board of Regents of the University System of Georgia (the “Board of Regents”).

The mission and purpose of the Foundation is to provide support to the teaching, research, public service and outreach programs of the University by means of volunteer leadership and assistance in development and fundraising activities; fiduciary care for the assets of the Foundation for the long-term benefit and enhancement of the University; and the provision of broad advice, consultation and support to the President of the University.

The Foundation operates as a Cooperative Organization in accordance with policies of the Board of Regents.

Basis of accounting

These financial statements have been prepared on the basis of accounting principles generally accepted in the United States of America.

Cash and cash equivalents

All highly liquid investments with an original maturity of three months or less are considered to be cash equivalents.

Long-term investment pool and other investments

Investments in common trust funds and securities with an established market value are carried at market value. Investments in real estate and securities without an established market value are carried at the lower of estimated market value at the date of gift or current market value as estimated by management of the Foundation. Realized gains and losses are computed using the specific identification method.

Contributions and net assets

Unconditional promises to give are recognized as unrestricted revenue when the underlying promises are received by the Foundation. Gifts of cash and other assets are reported as either temporarily or permanently restricted revenue if they are received with donor stipulations that limit the use of the donated asset.

When donor restrictions on cash and other assets reported as temporarily restricted net assets expire (that is, when a stipulated time restriction ends or purpose restriction is accomplished), temporarily restricted net assets are transferred to unrestricted net assets and reported in the statement of activities as net assets released from restrictions. It is the Foundation’s policy to use such funds for the restricted purpose as soon as it is practical and prudent.

The permanently restricted classification is used if the donor stipulations are restricted for a specified purpose, whereby gifts of cash and other assets must be invested in perpetuity to provide a permanent source of income for the Foundation.

Transfers are made between temporarily restricted and permanently restricted net assets as permitted or required by fund agreements with donors.

THE UNIVERSITY OF GEORGIA, INC.**

**Notes to Financial Statements - Continued
Year Ended June 30, 2006**

Note 1 – Summary of significant accounting policies (Continued)

Contributed services

The costs of services rendered by the External Affairs Division of the University of Georgia for fund-raising activities are borne by both the Foundation and the University. The costs borne by the Foundation are included in special programs and events and Archway to Excellence campaign on the statement of activities. The portion of the costs borne by the University is not included in the Foundation's financial statements. The contributed services provided by the University approximated \$4,955,000 for the year ended June 30, 2006. Essentially all of these costs would have been incurred by the University even if the Foundation did not exist. In addition, due to the insignificance of certain contributed services rendered to the Foundation by the accounting and certain other departments of the University, such amounts are not charged or included in the Foundation's financial statements.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Concentrations of credit risk

Financial instruments that potentially expose the Foundation to concentrations of credit risk consist primarily of cash and cash equivalents. Cash balances may at times exceed federally insured limits.

From time to time, the Foundation receives large pledges and contributions from a small number of donors that represent a significant portion of recorded pledges and contributions.

Income taxes

The Foundation is exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code. The Foundation is not a private foundation within the meaning of Section 509(a) of the Internal Revenue Code. Contributions made to the Foundation are deductible by the donors. The Foundation is subject to federal income tax on unrelated business income.

Note 2 – Pledges receivable

Pledges receivable of unconditional promises to give at June 30, 2006 consist of the following:

Pledges receivable	\$ 35,182,513
Less allowance for uncollectible pledges	(2,286,863)
Less allowance representing interest (5.2% at June 30, 2006)	<u>(3,599,221)</u>
Pledges receivable, net	\$ <u>29,296,429</u>

**THE ARCH FOUNDATION FOR
THE UNIVERSITY OF GEORGIA INC.**

**Notes to Financial Statements - Continued
Year Ended June 30, 2006**

Note 2 – Pledges receivable (Continued)

An allowance for uncollectible contributions is necessary as, from time to time, the Foundation may be unable to collect an outstanding pledge recorded as pledges receivable. The allowance is management's estimate of the potential future write-offs of uncollectible pledges and is based on historical write-offs and overdue contributions. Pledges receivable as of June 30, 2006 are due as follows:

In less than one year	\$ 13,314,063
In one to five years	20,119,810
Beyond five years	<u>1,748,640</u>
	\$ <u>35,182,513</u>

Note 3 - Investments

As of June 30, 2006, the long-term investment pool has a market value of \$4,757,391 and consists of investments in domestic and international equities of \$3,294,510 (69%) and fixed income instruments of \$1,462,881 (31%) that are held by an outside investment manager.

As of June 30, 2006, other investments of \$1,265,194 consist of contributed equity securities with a market value of \$635,194 and an investment in a limited partnership with an appraised value of \$630,000.

Note 4 – Related party transactions

During the year ended June 30, 2006, the Foundation transferred \$308,737 to the University for scholarships and donor restricted support. As of June 30, 2006, outstanding transfers of \$173,278 were due to the University and are included in accounts payable.
