

Bachelor Party Platform
Presidential Candidate: Herbie Hatlee
Vice Presidential Candidate: Paul Rehm

Goals if elected:

We would oppose the new admissions policy that has been proposed that would allow the top ten percent of every high school in Georgia an automatic acceptance inot our University.

We would like to add another Orbit bus during the peak hours of classes to cut down on inconvenience and class tardiness due to over crowding.

We feel that the school has an incredible opportunity to capitalize on the current poker craze in an effort to raise money for school organizations and charities in the community.

Opening the dining halls from 7 p.m. to 8 p.m. to help accommodate students who work or are in band practice would be a beneficial cause.

We feel that the efforts should continue on enrolling more minorities in our University to help increase our diversity.

We would like to lobby for an increase in the number of HOPE scholarship hours for students who decided to double major.

A lowering of parking pass prices would be a much needed relief on over burdened students.

A committee dedicated to the cause of raising alcohol awareness issues would be implemented to help in the schools problem with alcohol issues.

These ideas are just issues we have gathered from our peers as of late. We would like to continue to listen to our fellow students and present them with a President and Vice President dedicated to meeting their needs and desires.
