

DEPARTMENT OF CELLULAR BIOLOGY
SEMINAR SERIES - FALL SEMESTER, 2003
UNLESS OTHERWISE NOTED, ALL SEMINARS WILL BE HELD
IN 404A BIOLOGICAL SCIENCES BLDG. AT 11:00 AM

- SEPT. 2** **DR. ANDREW PHILLIPS**, Host: Dr. Scott Dougan
Department of Cellular Biology and Anatomy, Medical College of Georgia, Augusta, GA
Apoptosis and Tumor Suppression
Co-sponsored by the MCG/UGA Seminar Program of the Biomedical & Health Sciences Institute
- SEPT. 9** **DR. NANCY MANLEY**, Host: Dr. Scott Dougan
Department of Genetics, The University of Georgia, Athens, GA
Molecular Control of Thymus and Parathyroid Organogenesis
- SEPT. 16** **DR. PANDELAKIS KONI**, Host: Dr. Rick Tarleton
Molecular Immunology Program, Medical College of Georgia, Augusta, GA
Molecular Approaches to the Dissection of Antigen Presenting Cell Subsets
Co-sponsored by the MCG/UGA Seminar Program of the Biomedical & Health Sciences Institute
- SEPT. 23** **DR. FRED QUINN**, Host: Dr. Scott Dougan
Department of Medical Microbiology and Parasitology, The University of Georgia, Athens, GA
Examining Mycobacterial Virulence: Models and Mechanisms
- SEPT. 30** **DR. MICHAEL ADANG**, Host: Dr. Judy Willis
Department of Entomology, The University of Georgia, Athens, GA
Functional Proteomic Analyses of Bacillus thuringiensis Toxin-Insect Interactions
- OCT. 7** **DR. SARAH COVERT**, Host: Dr. Marcus Fechtmeier
School of Forestry Resources, The University of Georgia, Athens, GA
Fusiform Rust: An Analysis of Host, Pathogen and Environmental Interactions
- OCT. 14** **DR. STEPHEN DALTON**, Host: Dr. Scott Dougan
Department of Animal and Dairy Science, The University of Georgia, Athens, GA
Molecular Control of Self-Renewal and Pluripotency in Murine Embryonic Stem Cells
- OCT. 21** **DR. STEVEN FARBER**, Host: Dr. Walter Schmidt
Department of Microbiology and Immunology, Thomas Jefferson University, Philadelphia, PA
Lipomics and Genomics in Zebrafish: Visualizing Phospholipids Metabolism Using Fluorescent Lipid Reporters
Co-sponsored by the Department of Biochemistry and Molecular Biology
- *OCT. 29** **DR. JESSICA TREISMAN**, Host: Dr. Scott Dougan
Skirball Institute for Biomolecular Medicine, New York University, New York, NY
Pattern Formation in the Drosophila Visual System
Co-sponsored by the Department of Genetics
***Please Note: This seminar will be held Wednesday at 4:00 p.m., Room C127, Life Sciences Bldg**
- NOV. 4** **DR. IAIN SHEPHERD**, Host: Dr. James Lauderdale
Department of Biology, Emory University, Atlanta, GA
Zebrafish Enteric Nervous System Development a Model for Hirschsprung Disease
- NOV. 11** **DR. KRISHNA BHAT**, Host: Dr. Haini Cai
Department of Cell Biology, Emory University School of Medicine, Atlanta, GA
Axon Guidance and Neurological Disease: Tales of Two Signaling Pathways Involved in Axon Regeneration and Development
- NOV. 18** **DR. JOHN MCKINNEY**, Host: Dr. Rick Tarleton
Laboratory of Infection Biology, The Rockefeller University, New York, NY
Persisting Problems in Tuberculosis
Co-sponsored by the Center for Tropical and Emerging Global Disease
- NOV. 25** **Holiday**
- DEC. 2** **DR. ERICH JARVIS**, Host: Dr. James Lauderdale
Department of Neurobiology, Duke University Medical Center, Durham, NC
Evolution of Brain Pathways for Vocal Learning
