- both
- The Red and Black is crap
- Keep it local; within a house or dorm to prevent ebay-type brokering and wholesale scalping.
- FACEBOOK
- both
- Red & Black AND E-mail
- BOTH!!! for sure: make it official, yet seem trendy at the same time and it will get mass usage

When should students register for football tickets? - Other:

- Instead of wasting time and money getting tickets you know you can't use, you should be able to scan your ID for a football ticket a couple of weeks before each game. The place to scan should be somewhere like the Tate Center that is more convenient.
- Don't care.
- At the end of spring for current, upcoming students in summer
- end of spring for current students, summer for incoming students
- Prioritize something else

It is important to SGA that questions on these polls be relevant and pertinent to the issues facing the student body. As such, what question would you consider to be important enough to include in the next SGA Student Poll?

- - outrageous fees charged by the parking services
- questions concerning HOPE scholarship, and other scholarships ... It would be helpful to have HOPE evaluated every semester, but be able to get it back.
- whether or not classes should be graded on a A+, A, A- etc. scale because i think that would encourage more motivation
- Is Oasis an effective tool for checking future class schedules, scheduling classes and retrieving grades?
- Questions on housing and why there isn't going to be enough for everyone next year.
- I don't know, but the debt questions are kinda crazy. I use my credit cards in a responsible way, and so answered less than 1000 because there is a decent chance i'll have 100 or less on them.. this is not education related debt
- Actual substantive issues.
- Do student's feel represented at all by SGA? Are they able to get in touch or even know their Senators?
- What do students think of the price of parking tickets, especially those students who already have a parking pass on campus?

It is important to SGA that questions on these polls be relevant and pertinent to the issues facing the student body. As such, what question would you consider to be important enough to include in the next SGA Student Poll? (Continued)

- How is my money being spent by the university? Also, should students have to pay for things like a new parking deck when there are more important things the university needs, like money to make copies of syllabi?
- How would you rate the quality of your education? Do you think that your professor cares about your academic success?
- Are you in favor of having surveys to give all students a voice in the policies that affect them most?
- Who wants a numerical grade instead of a letter grade? For example 89 instead of a "B"
- ?
- Is the new online ticketing system worth having to pay an extra transaction fee?
- Is the Red and Black too liberal? Should it be more unbiased, or reflect an compensating conservative balance, such that at least half of the opinions and cartoons are conservative.
- book prices
- None. This year's SGA has been a dull penny compared to last year's with Sparks and Grebel.
- Health insurance

It is important to SGA that questions on these polls be relevant and pertinent to the issues facing the student body. As such, what question would you consider to be important enough to include in the next SGA Student Poll? (Continued)

- You might want to add a question qualifying your debt question. As a grad student, I own a house, so my personal debt is close to \$150,000 on it alone. I doubt this is what you were looking for though.
- the open forum for trading/selling f-ball tickets
- printing costs in the libraries and computer labs - other universities do not require students to pay for these services
- What do you guys do, exactly? Why does our SGA get so little cash compared to almost every other university in the country?
- What is the best way to not be ripped off by the bookstores?
- What has SGA done that affects you personally/how have you had personal contact with SGA this year?
- none
- The questions on debt and student's concerns about these debts. The fact that there were three questions on this survey regarding football tickets is ridiculous.
- Is correct spelling important on SGA polls?
- -convert the campus transit buses to biodiesel -more recycling bins on campus and more promotion of the recycling program -recycling at football games

It is important to SGA that questions on these polls be relevant and pertinent to the issues facing the student body. As such, what question would you consider to be important enough to include in the next SGA Student Poll? (Continued)

- How can SGA gain credibility in the eyes of UGA students?
- just to see if there is a some sort of alternative to the meal plan for students who eat maybe one meal a day on campus that live off campus
- Should SGA plan student events or give the money they use to University Union whose job is student programming?
- Should it be mandatory for all professors to not only set up WebCT for all courses, but also to post the syllabus and supplementary course materials (ex: graphs, charts, tables shown during lecture without enough time to adequately copy down)?
- would the student body be in favor of a switch to a +/- grading scale
- A question regarding the what students believe constitutes dishonesty (cheating) in their academic work.
- What time should the buses stop running on the weekends? And how could someone not have heard of SGA when they're on the top of the My UGA front page, not to mention that the Red & Black is constantly blasting them?
- What is your overall approval rating for the entire SGA body?
- Do you feel that using only UGA hours to award football tickets for students that have been at the university for at least a semester is fair?

It is important to SGA that questions on these polls be relevant and pertinent to the issues facing the student body. As such, what question would you consider to be important enough to include in the next SGA Student Poll? (Continued)

- Are you satisfied with the availability of student activities at the University?
- Should SGA be disbanded, having all its power and responsibilities handed over to University Union?
- Is it hard to enroll in the classes you need due to overpopulation? Yes.
- I feel a question that would be a fill in the blank, to monitor the students knowledge of current issues at uga. ie... Who is the current president and VP of SGA? When are the next elections? When is the next SGA meeting? or something like... the other day the school and sga approved \$26 million dollars for what on campus project? Something like this.
- Should there be more upperclassman housing on campus?
- How we feel about textbooks and the e-follet DOMINATION. Perhaps some alternatives to the MONEY SUCKING JERKS that run the bookstores would be FANTASTIC.
- How bad are the student tennis facilities?
- There are many questions that SGA could ask to gage the student bodies opinions. I feel that polls like these could be useful to get a larger amount of opinions on issues.
- What the heck have you guys acctually done? I wish SGA wasnt so political and actually worked to do something for the good of the school... east campus smell? taking aim at cheaters? fighting against students who price gauge other students for football tickets? Forget the next election and do something worthwhile for the University.

It is important to SGA that questions on these polls be relevant and pertinent to the issues facing the student body. As such, what question would you consider to be important enough to include in the next SGA Student Poll? (Continued)

- Do the sanitary problem with the toilets in dorms have an adverse affect on you?
- yes
- Student parking on campus should be cheaper. Compared to many schools, parking services charges way too much. Also, Gameday weekends, the athletic association should let all students park free in the decks. Often times, we get caught studying and when we try to leave we get charged.
- environmental/health concerns, such as campus recycling, biodiesel, and energy efficiency
- I think that the lack of recycling on campus and at football games is an important issue that SGA should address. Also, SGA should push the administration to run campus buses on biodiesel.
- ARE YOU SATISFIED WITH PARKING SERVICES?
- What's more important - education or football? Would you be willing to pay higher tuition for widely recognized experts to become faculty at UGA?
- Did you find the new online method of registering for football tickets to be preferable to scanning your card at Stegeman (the previous method)?
- How late should campus transit run and which routes. Grad students have to wait for busses and they are limited to certain routes. Busses should run all routes later for undergrads leaving campus and grads coming to campus.

It is important to SGA that questions on these polls be relevant and pertinent to the issues facing the student body. As such, what question would you consider to be important enough to include in the next SGA Student Poll? (Continued)

- Do you feel as though the University works for the students or the teachers as far as fair grading, being comfortable to raise your concerns to the proper authority, etc..?
- How do you feel about UGA's academic reputation?
- Do you have any idea what the Student Government Association does? If so... list what you think they do. Oh better yet... test people to see if they know what the !@#\$ yall do.
- There should be a poll about the involvement of students in the decisions made by the school.
- Library hours, wireless access improvements on S campus, biking safety
- Do you feel that SGA has taken action that affected you this past semester?
- Michael Adams staying president of UGA.
- Does SGA really do anything?
- Since students find Thursday nights a popular night to go out, shouldn't UGA follow in the footsteps of schools like UVA, a higher rated public school, and offer more MW classes so decrease skipping class, and therefore begin to raise overall GPAs?
- Do you think you tuition is high enough to insure at least one good parking space per quarter, per student? I live off campus, out of town (Athens)-I live in Elberton, as a lot of students do....I have to park at work (ATC) and take the bus to school. Would save time and be more convenient to park closer (aka on campus).

It is important to SGA that questions on these polls be relevant and pertinent to the issues facing the student body. As such, what question would you consider to be important enough to include in the next SGA Student Poll? (Continued)

- Ask people if they see SGA doing anything for them...
- Fixing shower heads in Brumby.
- Should the SGA be disbanded?
- "what do you consider's SGA's role to be" (with choices) "are they doing a good job" (with choices) 'what should they be doing/doing better' choices ex: activity programming, voice student concern, bridge student/administrative gap, recruiting etc... "what should they not do/do less of" with similar choices to the above perhaps with some additions + an additional comment box like this one
- question about financial debt
- Do you think the University is spending all of your tuition money wisely or do you feel you are being overcharged for a second rate education?
- Is the current method in which parking spaces are allocated effectively serving commuting students?
- How do you feel about affirmative action at the University of Georgia? How can the SGA better inform the students of UGA of important issues and activities at UGA.
- Has SGA appropriately represented you this year? Has it failed you this year? Were you satisfied with the SGA President and Vice-president and the work they accomplished this year? What is your biggest concern as a UGA student?

It is important to SGA that questions on these polls be relevant and pertinent to the issues facing the student body. As such, what question would you consider to be important enough to include in the next SGA Student Poll? (Continued)

- amount of attention Greek Life receive by SGA, Housing Policies (RA's next year living with freshman), Text Book Prices, on-campus construction
- Do you think the University is trying too hard to make academics more stringent?
- Frankly, none of the questions thus far have particularly useful to me. Football should be reprioritized to take a backseat to academic issues. WAY too much attention is given the sport when real issues are overlooked.
- Yeah like the student fee increase, the proposal to close the library on football game days to all people instead of having the athletic association start footing the bill for security in all open buildings and clean-up of the building interiors that get trashed by drunken idiot fans.
- Reducing the cost of attending UGA by eliminating luxury fees such as the Tate Center expansion, the Mongolian grill at O'House Dining Commons, and Athletic fees for students not interested in attending athletic events.
- Do you feel your academic needs are the true top priority of UGA administration and staff?
- How effective is the SGA? 0 (out of a 0-10 scale). How they have a purpose? No. Do you think SGA will affect you as a student? No. Does the University care more about appeasing alumni over its own student body? Yes.

It is important to SGA that questions on these polls be relevant and pertinent to the issues facing the student body. As such, what question would you consider to be important enough to include in the next SGA Student Poll? (Continued)

- The question about football tickets and an open forum
- none
- I and other students I know are concerned about the growing problem with how many classes fill up before you can get in them. There are classes that I need for my major and I am a junior and I still couldn't get in them because they were filled. I know it is a problem for a lot of majors and is a henderance to graducating on time in some cases. I think that SGA needs to get involved in finding out why majors around UGA aren't providing enough space for their major students especially in upper level classes that are required for graduation. If I wasn't on HOPE I would be ravid about this because if we pay to go to this university we should be able to get the classes we need to graduate on time. So I would ask students if they feel they are getting into the classes that they need and how they feel about the registration process.
- How late should campus transit run and which routes. Grad studets have to wait for busses and they are limited to certain routes. Busses should run all routes later for undergrades leaving campus and grads coming to campus.
- The longevity of finals week...is it excessive?
- Do you feel the bus system needs to improve it's hours and cover more areas of Athens once the Athens buses stop running?
